

## Research Data Analyst Position

BBC Research & Consulting (BBC) is a Denver-based economic, market, and policy research firm that has conducted thousands of research projects for a wide range of public and private sector organizations across the country. We are currently seeking a qualified data analyst to join our team on a full-time basis and contribute to our diversity and discrimination, economic, and market and customer research projects. We are looking for job candidates with excellent quantitative research abilities, data management and analysis skills, and the following experience:

- Expertise with Excel, Access, and statistical programs/applications (for example, STATA, SPSS, or R); and
- Knowledge of computer programming languages (for example, Perl, Python, and SQL).

Successful candidates are usually top students from bachelors or graduate programs in economics, statistics, public policy, policy analysis, and social sciences. Requirements for the position also include superior work ethic, willingness to learn, attention to detail, and demonstrated ability to work in a team environment.

This is a hybrid in-person position. Staff members are required to work from our Denver office on Mondays and Wednesdays and remotely on Tuesdays, Thursdays, and Fridays. As required, BBC issues necessary computer equipment, mobile phones, and other equipment for the duration of our staff members' tenure at the firm.

Salary range: \$50,000-\$80,000. Compensation will be based on experience.

Benefits: Health insurance (with dental and vision), life insurance, retirement plan with 3 percent employer match, accrued flex time, and a monthly stipend to offset parking and technological needs.

Promotion potential: Yes

BBC is an equal opportunity employer.
